

Temperature-Controlled Transportation

When shipping perishable foods, pharmaceuticals or other temperature-sensitive materials quickly, reliably and cost effectively, Freightquote by C.H. Robinson has you covered! With extensive experience in temperature-controlled freight shipping and access to local, regional and national carriers, Freightquote's technology makes the process as hassle-free as possible.

**Get accurate quotes
instantly.**

Simply provide us with some basics about your shipment, such as commodity and refrigeration needs, and we will return a quote within seconds! Quoting is available online 24/7.

As a C.H. Robinson company, we work closely with our colleagues at Robinson Fresh to execute more than 400,000 shipments of perishable products per year. With more than 100 years of history, we are able to leverage pricing for millions of shipments to provide an accurate quote instantly. More importantly we know your freight is time sensitive, which is why using our network and tools will allow for proper execution of your freight.

**Rely on our vast
carrier network.**

Freightquote by C.H. Robinson has access to thousands of carriers throughout North America with more than 250,000 individual pieces of refrigerated equipment. Because of this, we are a leader in sourcing temp-controlled capacity - even during the peak summer months. This extensive network also helps keep costs competitive and gives you the flexibility to choose the level of service that is right for your business.

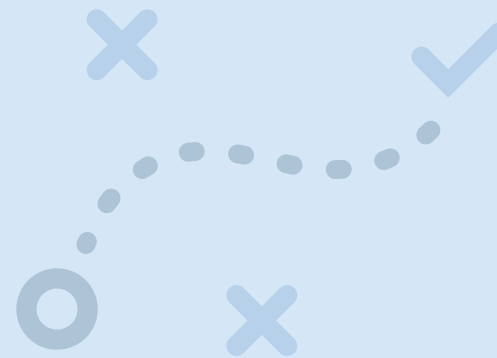

Utilize our expertise.

Shipping temperature-controlled freight is often a complex enterprise with peak times and tight delivery windows. We understand the importance to focus your people on your core business, so let us be an extension of your company to manage all of the logistics throughout the year.

Gain **visibility** to your shipments.

Track and trace your refrigerated shipments from start to finish on a single platform. Our online tools even allow you to view and print documents, generate custom reports and more. You'll be able to provide your partners with everything needed to ensure successful delivery.

Add specialized services when needed.

Optimize and customize your supply chain with specialized services that include:

- North America cross-border service
- High value goods
- Hazardous material shipments
- Expedited options
- Highly time sensitive & expedited options

About us:
